

## Full Stack Developer Intern

Careerleaf

### About Us

Working for Careerleaf has many benefits, including the chance to hone your skills in a collaborative and fast-paced startup environment. You'll help solve cool problems and your solutions will have influence on an entire industry. You'll be joining forces with a company that is going places. Our offices are located in downtown Toronto, barely a block from the subway station, in the midst of restaurants, shopping, and entertainment.

### Job Description

You'll be working closely with a small team to deliver and improve code, gathering and acting on customer feedback to improve the product, and researching and suggesting technologies and methodologies. Communication skills, and a willingness to learn and collaborate on the job will be put to good use in helping move the product and company forward.

### Responsibilities

- Developing code using HTML, CSS, Javascript, and PHP
- WordPress theme and plugin development
- Technical writing, usability testing, and QA
- Customer onboarding, working with the team to deploy customer sites
- Research latest technologies
- Metrics gathering and analysis

### Qualifications

- HTML, CSS, Javascript, and PHP
- Experience with Python and Django
- Experience with WordPress development, themes, and plugins
- Good communication, research, and problem-solving skills
