

## Quality Assurance Analyst

Tata Consultancy Services

### About the Company:

Tata Consultancy Services is an IT services, consulting and business solutions organization that delivers real results to global business, ensuring a level of certainty no other firm can match. TCS offers a consulting-led, integrated portfolio of IT, BPS, infrastructure, engineering and assurance services. This is delivered through its unique Global Network Delivery Model™, recognized as the benchmark of excellence in software development. A part of the Tata group, India's largest industrial conglomerate, TCS has over 362,000 of the world's best-trained consultants in 45 countries. The company generated consolidated revenues of US \$16.5 billion for year ended March 31, 2016 and is listed on the BSE Limited and National Stock Exchange of India Limited.

### Job Description:

Recent graduates can take part in the ILP Program. The ILP Program is a six week fully-paid, comprehensive training program. New graduates will have the opportunity to work with diverse and cutting-edge technologies, while gaining both domestic and international experience and exploring multiple career paths. After the training graduates will be placed in a full-time position working in various projects either within banking, telecom, government, energy or the insurance industry.

### Responsibilities:

- Become a key player in improving and maintaining the overall quality of our products
- Execute and maintain test plans for a variety of projects

## Quality Assurance Analyst

Tata Consultancy Services

- Identify, analyze, and document defects, questionable functions, errors, and inconsistencies in software program functions, outputs, online screens and content
- Document, track, and communicate test cases, results, analysis, and unresolved problems to developers
- Perform functional, exploratory, regression and user acceptance testing during release cycles
- Maintain defect-tracking database for multiple projects

### Qualifications:

- Bachelor's degree (with a graduation date between 2015 and 2017)
- Cumulative or Major GPA of 3.0 or higher
- Strong Critical Thinking, Analytical and Problem Solving Skills
- Interest and willingness to travel and relocate
- Previous experience in Java/J2EE Development, C++/C#, .Net, VB/ASP Development

### Job Type:

Full-Time
