

Senior Software Engineer

iamsick.ca

Who we are

iamsick.ca is a social enterprise with a laser focus on simplifying access to healthcare services by helping Canadians find fast, easy, and appropriate care. Our digital health platform lets patients find nearby healthcare providers, book appointments online, see wait times from the comfort of their homes, and avoid long waits with our virtual waiting room. Healthcare providers benefit from our platform, because we help them deliver care more efficiently.

About the job

We are looking to fill a senior software engineering role to lead a high-impact project that involves building and launching a new service for our digital health platform. If you think you're a good fit, we'd love to hear from you!

What you'll be doing

You will collaborate with the company's President & development team to see through the development of new services. Some of your specific tasks may include:

- Contributing to strategic and tactical product planning
- Contributing to product development, system architecture, design, testing and deployment
- Delivering a high-quality, stable application that fills unmet healthcare needs

What you'll need

- Strong familiarity with Health IT platforms (EMRs, EHRs, PMSs)
- Extensive knowledge of interoperability and integration of healthcare systems
- Passion for working within an agile technology company
- Strong hands-on technical skills, and can contribute to coding and architecture
- Experience leading technical projects and facilitating technological decision making
- Experience anticipating technical issues and making architectural or design decisions
- Strong communication skills
- Interest in healthcare & improving access to care

Senior Software Engineer

iamsick.ca

Bonus

- Experience implementing and supporting HL7 FHIR/CDA interfaces
- Experience with Ruby on Rails
- Experience building interactive web applications
- Experience managing a team and mentoring junior developers

What we offer you

Health benefits

- A fun work environment with interesting projects and exciting challenges
- You will be a part of a team striving to make a positive impact in Canadian healthcare
- Engaging work environment that fosters innovation and professional development
- We value the perspectives of all team members. Your opinions will help guide our products and processes

Our home base is conveniently located in downtown Toronto across the street from MaRS...

- steps from the Queens Park TTC Station
